Kieran,

Have you read the Archive? If you have one of the newer browsers you can get right to it by pressing the 'moonmilk.volcano.org' URL at the bottom of this message series. It might be helpful for you to skim some of the topics the group has already worried through. It's expanded to three units now, but perhaps you need read only the latest one. Though your scenario isn't bad!

vizcacha,

Even I, who don't play computer games, have played one of your games right through to the end! I will always love Return to Zork for its sheer goofiness, and I even bought Zork Nemesis, hoping for more of the same. Alas, it turned out to be all woo-woo Mysticism (plus a RAM hog), and I couldn't get interested at all. Starcross sounds good. I'm impressed!

(mantis,

Does Piaton mean "foot-soldier?" Like Latro? No, I guess that would be an "ie"---what does it mean in Greek?)

If I read you correctly, you think my quote from Marble supports mantis's triune M/M/R. I think it's just the opposite, but shows how thoroughly mixed Marble and Rose are, like a left brain/right brain thing. Marble is saying, "without you I would have been left alone with Rose," and Rose is saying, "without you I would have been left alone with that chem." It gets mixed together so she says both, and adds "_We'd_ have gone mad!" You have to work to tease out what's a Marble thought from what's a Rose thought.

You're absolutely right in both cases...thanks again. I really didn't want Mint in there and conceded only with regret.

Xury,

Though there've been no theophanies for 30 years, Q has been Prolocutor for 33 and must certainly have been around for quite a while before that. There is, in fact, a case to be made that he has been on the voyage since the beginning. In any event, he has had plenty of time and opportunity and access to the Chrasmalogic Writings etc. to be well acquainted with the ways of the gods.
