Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

I find it interesting that at one point the writings are referred to as the "Charismatic Writings." Probably a typo, but it leads me to wonder, what does "chrasmologic" mean? It sounds Greek, and "chrasm" reminds me of "chrism," but that's it.
