Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Pardon my ignorance, but what is "Lupine"? I just picked up a copy of There Are Doors at the used paperback store the other day, and it is described as "loop-the-Lupine". I've heard you guys talk about Lupine on the list before.

Thanks,

-Steve
