Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Re: Tick Talk

I had always thought that that "add word" was Tick's way of saying "Bad word" - a euphemism for swearing. Otherwise it would be either "wadd word" (b -> w) or "add erd" (drop initial b's). But from the context I think was wrong, and the CW on the list is right.
