Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

If not then: What exactly is a voided cross? Please Describe it. (Or draw it, if you will).

Thank You,

Xury
