Just read the transcript, and it makes me fret for the answers to our questions! But I did want to pick out one reply for clarification

[paste, re Short Sun trilogy]

It will deal with the colonists, and will take up about twenty years after the ending of "Book of the Long Sun," when Horn is asked to return to the Whorl to bring Silk to the colonized world of Blue.

I read that not as starting 20 years later but as the story of the next 20 years, during which Silk presumably stays aboard the Whorl, or at least the colonists think he does.
