I finally read the transcript of the People Interview. The comment that jumped out to me was Wolfe's clarification that Horn AND Nettle were the narrators of _Long_Sun_.

Okay, the afterword clearly states that she was an assistant on the project, and we've pretty much always discussed Horn and his contributor's in the same breath, but Wolfe's response seemed kinda nit-picky. Or is it significant? Does Nettle's perception inform any particularly critical scene?
