

# Hyacinth & Birds

The Whorl list — 1 messages, 1 voices, 01 Oct 1997

<https://urth.darkrealm.vip/thread/whorl/445>

Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Heard this on an National Public Radio broadcast the other day ("The 90-second Naturalist" with Thane Maynard (sp?) from the Cincy Zoo):

One of the most common types of macaws is the hyacinth macaw, named for its purple-hued feathers.

Perhaps Silk's bird-brained relationships extended beyond Oreb.
