Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Alice Turner — 04 Mar 1998, 19:11

Gene Wolfe's the _Fifth Head of Cerberus_ is mentioned as a work influenced by the discussion of cloning in the later 1960s and early 1970s in _Clone_ by Gina Kolata (William & Morrow, 1998) on page 114. A plot summary is offered and the work is related to the fears and hopes people have about cloning.

That's interesting. Does it mention LeGuin's "Nine Lives?" A very different take.
