Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Michael Andre-Driussi informs me that he can't get on the list because the authentication subject line is too long for Genie. I suggest someone rectify this! :-)
