Actually, the whole ring business is going to bother me until I know what is going on with it, because it reminds me of something very strongly: Thomas Covenant. Yes--Horn rapes Seawrack, and she gives him a white/gold ring with mysterious powers; as Covenant raped Lena, who (did she? I don't really remember) gives him a white-gold ring with mysterious powers. If it was anything else, I'd say the reference was obvious, but I so disliked the Covenant books that I'm really hoping that future events will convince me this resemblance is purely accidental.
