Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

I'm afraid I would be against starting the discussion of IGJ two months early - simply because the digests make it difficult to avoid spoilers, and I doubt I'd have the time to look back through old discussions once I do have a copy in my hands. But hey, what do I know?

Can we save it until July at least? (Or provide advance copies for all?)
