Exported from an unofficial mirror of a public mailing list. Copyright in each message remains with the person who wrote it. Email addresses are obscured as `user at host`, the form the original archive published. This file was rebuilt from parsed fields rather than retained headers, so it is faithful in content but not byte-exact.

Hi folks,

In between writing an article on Buffy for a forthcoming book, and rushing a piece on Sterne for another book, I've just set up a delphi forum for further discussion of Ultan's Library. I'm testing it at the moment, and I haven't decided whether to keep it or scrap it, so it isn't linked to the journal web page yet.

But.... I've posted the abstracts for the symposium later this month there.
